ABDUL RAZAQUE

AI & Machine Learning Student | Computer Vision | Generative AI | Software Development
Sukkur, Pakistan | +92 306 3044889 | f23ari02@aror.edu.pk
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

BS Artificial Intelligence student 7th semester with hands-on experience building end-to-end machine learning, deep learning and computer vision projects in Python. Certified Generative AI Application Developer (NCEAC-HEC Cohort 3, 2026) with practical exposure to LLM-integrated systems. Completed a Machine Learning internship delivering production-ready pipelines and clearly documented results.

EDUCATION

Bachelor of Science in Artificial Intelligence Jun 2023 – May 2027 (Expected)
Aror University of Art, Architecture, Design and Heritage, Sukkur, Pakistan
Coursework: Machine Learning, Deep Learning & Neural Networks, Computer Vision, Generative AI, Digital Image Processing,.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL, JavaScript, HTML/CSS
AI / ML / DL: Scikit-Learn, PyTorch, TensorFlow, Keras, OpenCV, NLTK, Pandas, NumPy, Matplotlib, Seaborn
Generative AI: LLMs, Transformers, Prompt Engineering, RAG Pipelines, Agentic AI, LangChain
Web & Deployment: Flask, FastAPI, Streamlit, Docker, AWS (EC2/S3), CI/CD
Tools & Databases: Git/GitHub, Jupyter Notebook, Google Colab, VS Code, Linux, SQL / MySQL

EXPERIENCE

Machine Learning Intern | Elevvo Pathways Jul 2025 – Sep 2025
- Trained a CNN + MFCC audio classifier on 1,000+ tracks, reaching 87% multi-class accuracy across 10 music genres using data augmentation and hyperparameter optimization.
- Delivered 3+ end-to-end ML pipelines (data cleaning, feature engineering, training, tuning) with Scikit-Learn, Pandas and NumPy, reducing model iteration time by ~40%.
- Documented model metrics and presented findings to 2 engineering teams and non-technical stakeholders through structured milestone reports.

PROJECTS

AI-Based Smart Career Counseling Expert System | GitHub Python, Streamlit
- Built a rule-based expert system (knowledge base, inference engine, forward chaining) that recommends careers from a user's skills, interests and personality traits.
- Supports 10 career domains with explainable recommendations, skill-gap analysis and personalized roadmaps, delivered through an interactive Streamlit interface.

AutoML for Small Businesses | GitHub Sep 2025 – Dec 2025
- Built an automated ML pipeline that trains and compares 5+ algorithms (Random Forest, SVM, KNN, Logistic Regression, Decision Tree), cutting experimentation time by ~60%.
- Automated missing-value imputation, categorical encoding and feature scaling, and reported accuracy, precision, recall and F1-score with visualizations for non-technical users.

Tech: Python, Scikit-Learn, Pandas, NumPy, Matplotlib, Jupyter Notebook

Face Detection Attendance System | GitHub Jan 2025 – Apr 2025
- Developed a real-time attendance system using OpenCV face detection at 30+ FPS, reducing attendance-logging time by ~80%.
- Applied histogram equalization and noise filtering to maintain accuracy in varied lighting; stored timestamped records in a SQL database for audit trails and reporting.

Tech: Python, OpenCV, SQL, Tkinter

CERTIFICATIONS & TRAINING

- **NYLP x AI Hackathon 2026: Building AI Products** – Certificate of Participation, National Youth Leadership Programme (NYLP), 15–18 Oct 2026; issued 1 Nov 2026, Certificate No. NYLP/Hackathon/B1/008
- **Open Hack' 26, 24-Hour Hybrid Hackathon** – Certificate of Participation (Team Bug Hunters), Dept. of Software Engineering, MUET SZAB Khairpur Mir's, 13 Oct 2026
- **Generative AI Application Developer Certificate** – NCEAC-HEC Generative AI Training, Cohort 3 (2026)
- **Machine Learning Internship Certificate** – Elevvo Pathways (2025)
- **Google UX Design** – Foundations of User Experience Design & Human-Centered Thinking
- **Data Analytics with AI** – Data Analysis Techniques Powered by Artificial Intelligence Tools
- **Brainstorming with AI** – Applied AI-Enhanced Ideation & Structured Problem-Solving Methods
